

# October News

## This Month's Learning & Activities

During the month of October, in math we will continue to focus on multiplication. All students must be fluent in their multiplication facts 0-12! We will also continue to tell time to the nearest minute and hour, elapsed time, and add and subtract within 1000.

In Reading/ELA we will focus on describing characters in a story and explain how their actions contribute to the sequence of events. In writing we will continue to focus on the structure of a paragraph, and publish our four paragraph essays.

## Important Dates

October 2nd-5th	Homecoming Dress-up Days
October 6th-9th	Fall Break
October 19th-20th	Parent/Teacher Conferences
October 23rd-27th	Red Ribbon Week
October 27th	Award Ceremony
October 31st-	Halloween: Parade at 9:00, party from 12:45-2:00

## Notes Reminders & Tips

Parents PLEASE remember to continue to ask your child to show you their homework folder and graded work! Your child should be asking you to check their completed homework Monday- Thursday! It is also very important that your child is studying their multiplication EVERY NIGHT! One of the key concepts in Math for third grade is for every student to become fluent in their multiplication facts 0-12. We have mastered many different strategies to find the product, now your child must use those strategies and STUDY, STUDY, STUDY! We will continue to take a timed Multiplication Quiz every day, all students should be

prepared. Please continue working with your child with studying these words every night!

This year is off to a GREAT start! I am already attached to every one of my 3rd grade students! They are truly an amazing group of kids! We are working toward our first report card/grading period, and every student is striving for excellence! I would like to thank all of you for your continuous support in your child's education. Together, we will prepare all our children for the future!

Sincerely,
